

IMS012 - FORM

ENVIRONMENTAL POLICY

Lowmac Alloys Ltd (Lowmac), an integrated waste management business that provides skip hire, transport, and waste removal for our customers, as well as secure shredding of confidential paper, WEEE, scrap metal recycling and end of life vehicle disposal. At our Material Recovery facility, we segregate, treat and recycle material, with the aim of reducing waste to landfill and running our business efficiently.

As part of our Legal Compliance requirements, Lowmac are registered with the Scottish Environmental Protection agency and the Department of Transport.

Environmental Objectives

Lowmac accepts responsibility for the harmful effects of its operations through the use of resources, transport emissions and waste segregation and as such are committed to minimising where possible our impact on the environment.

The Company will comply with all relevant environmental legislation and industry guidelines, continually improving our environmental performance. We are committed to providing training, information and guidance to our employees to prevent environmental incidents, raise awareness of environmental issues and enlist their support in improving the Company's performance.

Monitor and Review

As part of our ISO 14001 accreditation, we have implemented a monitoring system which will effectively measure our environmental impact and allow the company to strive for continual improvement.

Newly-Enlightened Co will encourage the adoption of similar principles by its suppliers.

Supply Chain

We encourage our suppliers and contractors to work with us to reduce our environmental impact through the supply chain. Lowmac will only use suppliers and contractors who can demonstrate legal compliance with relevant regulations.

Communication

We will promote this Policy to our employees, suppliers and contractors through our induction process and website.
